PROFESSIONAL SUMMARY

UI/UX Designer with 3+ years of experience designing scalable web and mobile applications. Skilled in user research, wireframing, prototyping, and building design systems. Proven ability to improve user experience and conversion rates through data-driven design decisions. Proficient in Figma, Framer, HTML, and CSS with strong collaboration across cross-functional teams.

EXPERIENCE

Codersbay Technology UI/UX Designer (June 2025 to Present)

- Designed responsive web/mobile interfaces, improving user engagement by 25% and reducing bounce rate by 15% through user-centered design principles
- Conducted user research, created wireframes, user flows, and interactive prototypes, increasing task completion efficiency by 30%.
- Collaborated with developers and product managers to ensure seamless design-to-development handoff, reducing development iterations by 20%.
- Built and maintained scalable design systems and component libraries, improving design consistency across multiple products.
- Applied usability testing and accessibility (WCAG) standards to enhance user experience and inclusivity.
- Designed landing pages, dashboards, and mobile-first layouts, improving conversion rates by 18% through optimized visual hierarchy and UX writing.
- Led UI/UX for key projects:
 - Just Deliveries: Reduced task completion time by 30% by optimizing dashboard workflows and navigation.
 - LarkAI: Designed AI-powered SaaS dashboard improving real-time data interpretation and user efficiency.
 - FAAD: Improved onboarding flow, increasing user engagement by 22%.
 - Codersbay Landing Page: Increased lead conversion by 20% through modern UI and UX improvements.
 - Zunno Projects: Enhanced conversion-focused design, improving user interaction and retention.
- Improved overall user experience through iterative design, A/B testing, and data-driven decision-making.

CodeQuery UI/UX Designer (Oct 2024 to June 2025)

- Designed intuitive web and mobile interfaces, improving user engagement and usability across multiple client and in-house products.
- Created wireframes, prototypes, and user flows to optimize user journeys and improve task efficiency by 25%.
- Collaborated with developers to ensure smooth implementation and reduce UI inconsistencies.
- Conducted usability testing and improved accessibility, enhancing overall user satisfaction.
- Designed UI for Testotry Care (medical platform) and SerQ (user and provider apps), improving workflow clarity and feature accessibility.

Nexviz Services Pvt. Ltd. UI/UX & Graphic Designer (Jan 2023 to Aug 2024)

- Designed user-centric interfaces aligned with business and brand goals, improving customer engagement.
- Led UX strategy sessions, conducted user research, and developed wireframes and prototypes using Figma and Adobe XD.
- Created consistent visual design systems and branding assets across multiple platforms.
- Collaborated with cross-functional teams to deliver cohesive and scalable design solutions.

Deo Biz Services Pvt. Ltd. Graphic Designer (May 2022 to Jan 2023)

- Designed marketing materials including brochures, banners, and social media creatives, improving brand visibility.
- Developed visually compelling designs aligned with marketing strategies and client requirements.
- Collaborated with stakeholders to deliver high-quality creative assets within deadlines.

UX SKILLS:

User Research, UX Strategy, Design Thinking, User Flows, Wireframing, Prototyping, Usability Testing , A/B Testing
